MINUTES:

The April 5, 2016 Meeting minutes were approved with minor corrections.

GUESTS:

No Guest

OLD BUSINESS:

28 Madera Drive: Brian spoke with Ms. Joanne Rodriguez about drainage situation. He explained to her, that it would take some additional time, as he needed to get the Forman “up to speed” on the underlying problem of no culvert/pipe under the driveway. He is leaning toward a solution involving an undergrown drainage system. The difficulty here is due to the lack of pitch across

the length and width of the driveway. Brian indicated that he stopped over recently after a minor rain incident, and observed approximately 6” of standing water in the driveway.

NEW BUSINESS:

Brian indicated that the crews were finishing up winter clean up, and are starting to transition into spring and summer work, as weather permits.

MEETING PROJECT REVIEW:

April 12, 2016 Chili Planning Board

Review of Past Agenda Application list and submitted materials

Matt reiterated the concerns that the Town and Committee had about the **SMATTL Holdings LLC** Project. **3513 Union St.** Stormwater runoff, grading, roads and Buildings were all discussed.

Matt briefly discussed the expansion of the **Fathers House** Parking lot. No drainage issues were mentioned, since the preexisting ponds and drainage system will be adequate to handle the additional parking lot.

Matt discussed the **Forest Creek Equity Corp.** subdivision project located between **75 and 89 Beaver Rd.** Some concerns were raised by the Committee about the size, and number of lots, as well as the long term maintenance of the drainage systems and ponds. Matt and Brian pointed out that the Homeowners would be responsible for this once the project is approved and built.
