Tracy DiFlorio, Councilwoman Town of Chili

**Summary of Approved Minutes**  
**Town of Chili Drainage Committee**

September 3, 2013

Matthew Sinacola, Chairperson called the meeting to order at 7:05 p.m.

The meeting was held at the New Town Highway Garage Facility at 200 Beaver Rd.

**MEMBERS PRESENT:**

Matthew Sinacola, Chairperson, Jarod Hirt, Vice-Chairperson, Dr. William Dingus, Secretary, Vince Falco, Geoffrey Wiater, Ron De George, Brian Ostling, Deputy Commissioner of Public Works, and Tracy DiFlorio, Councilwoman Town of Chili

**MEMBERS ABSENT:** Scott Beaman

**MINUTES:**

The August 2013 Meeting minutes was reviewed, several corrections were addressed, and then minutes were approved unanimously.

**GUESTS:**

No guest were present for the meeting

**OLD BUSINESS and WORK COMPLETED:**

**12 Andony Ln.:** Brian commented on the repair of the street catch basins and crossover pipe in the roadway. The drainage problem had persisted in this location for a number of years and is finally getting fixed due to the paving project that is scheduled for completion soon. He added that even though this is not part of the Drainage committee's assigned task, it highlighted the fact that this problem could have been addressed sooner had the homeowner reported the problem to the Highway Department. Brian reminded the Committee members that the Department of Public Works tries to be proactive about drainage repairs. He concluded by stating that the public can play an important role in bringing problems to their attention, which also applies to the drainage issues that are the responsibility of the Committee.

**#40 Bucky Drive and #38 Omega Drive,** Brian discussed the installation of yard inlets and perforated drainage pipe to improve the drainage flow in the yards. (Davis Park Area): The work was completed

**8-9 Bucky Drive:** Brian indicated that the DPW cleaned out the catch basin, and that this should alleviate the problem with standing water between the homes. The work was completed.

**NEW BUSINESS:**

No New Business was presented to the Committee

**REVIEW:**

**Wadhams Enterprises:** Matt updated the committee on the planned Fuel Distribution Facility enlarged Parking and storage area. The drainage flow from the added parking and storage area will flow to the northeast into the existing storm water management facility. He noted that the committee might want to visit the facility during the construction of the designed drainage system. Matt indicated that it was a good example a shallow pond filtration system that moves water, without attracting water fowls.

**Greenwood Development:** Phase 2 of the Development is underway in the adjoining parcel east of Wegman's. Matt discussed the progress that has been made with respect to the construction of the ponds and connecting pathway between the development and Wegman's. He also updated the committee on the future location of the pumping facility that will service the entire development. Matt added that like the Wadham Project, the Greenwood Development would be a good opportunity for the Committee members to view the construction of ponds at both locations.

**ADJOURNMENT:**

Meeting adjourned at 7:50 p.m.

The next meeting will be on October 1, 2013

Respectfully submitted,

Dr. William Dingus
