Item #1

Grenell Dr.

Checked speed and conditions twice.

Observed 58 vehicles first time. 3 were over the 30 MPH speed limit. All were under 35 MPH. 1 hr 3 min

Observed 27 vehicles 2nd time all were at or under 30 MPH. 20 minutes

When vehicle is going 30 miles per hour it seems much faster. In my opinion it is too fast for the street. The curve causes difficulty observing those cars (and trucks) when resident is backing out of driveway. Vehicles enter the street from Paul road at unreasonable speeds. It appears that they are watching traffic west bound on Paul and going quickly to beat the oncoming cars. The same is true with the entry from Chili Ave.

Suggestions:

Petition to reduce speed limit to 20 MPH and enforce. Block off entry from Chili Ave. and make it one way. (This would increase traffic turning left when leaving Wegmans to turn left onto Paul Rd.)

The residents have a very reasonable concern. It is a dangerous situation and should be addressed.
