OLD BUSINESS

The committee continued its discussion from the last two meetings about the future meeting schedule. No changes to the current schedule are proposed.

Matt stated that he spoke to the staff at the building department about having design plans distributed to the drainage committee for review.

The format of the drainage committee meeting minutes was discussed. Mary Sperr offered a copy of the Traffic and Safety Committee minutes as an example of how we might alter the format. This would offer a running record of what is being discussed under old business. Matt will review and consider this change. It was agreed that adopting the property address as an identifier would be best for future minutes.

NEW BUSINESS

There was no new business to discuss.
