Jessica is interested in the Zuber property which will become a park. Her family grew up close to the Zuber family. She has reached out to the Zubers and would like to write an article remembering life near the Zuber farm. Jessica is excited to let people know how important the farm life was to Chili in those days. She has a Fine Arts Degree. Her thesis was about her family in early Chili and the connection to art. She wants help to write the article for the fall Chili Newsletter. It may be due in August. James will double check the date. Tammy suggested that she tie it in with the Bicentennial and display pictures, etc. at Streeters Inn. Zubers are an important part of Chili's history.
